Business Description

The business boasts being the leading independent Renault Sport workshop outside of Renault themselves. With their renowned, vast product knowledge, the staff can advise on the best parts to suit a customers requirements through to pricing and building a 500HP Megane track car. They also have their own in-house rolling road on which many of the parts are tested before release to make sure the customer gets maximum gains from their stock.

Over time, the business has developed its own 'world-leading' GEN90 ECU for certain Clio models and the new GEN128 is just about to be released for other Renaultsport models. The premises has a 7000 – 8000 sq footprint that includes a showroom (with scope for expansion), parts storage (accessible and catalogued), full workshop with multiple ramps & associated equipment, independent Dyno facility and covered storage, ¾ acres of ample room for stock or customer parking. There are also 2 first floor flats as part of the building.

Opportunity

Intelligent is delighted to market this lucrative, one-stop-shop for racing. From the early modified Renault 5 in the first 'Ali G' movie, the shop is the known brand in the UK for race and street modification, enhancement and performance tuning across the Renault range.

To grow the business, the new buyer might want to consider expanding the showroom facilities. They may look to increase internet part sales, advertising their sales on alternative sites, reaching for higher engagement. There is a potential, additional income of approximately £1500 to sublet the extensive forecourt to a car sales company or an existing alternative trader as well as potential income from the 2 first floor flats.

The ideal buyer would have to be a passionate car enthusiast. They may be an active member of a race team looking to take the business to the next level. Additionally, any competitive or complementary part suppliers could benefit from
